

Please carefully read the following instructions, these will help you to make the most of your conference experience.

Workshops

Please check the programme for details of the time allocation for your workshop. These will usually be 90 minutes. Workshops should differ significantly from oral presentations in their aims and how they are run. We strongly encourage the use of interactivity to increase audience participation. Furthermore, if you are inviting the views of the audience and substantial discussion/debate, please allow sufficient time for this. Session Chairs are not usually provided for workshop sessions, as these tend to be more informal, let us know if you would like a Chair.

Guidance for Speakers
